DETAILED ACTION

Receipt of applicant's amendment filed 8/6/2004 is acknowledged. Claims 1,3 and 11-12 are pending. Applicant's arguments are found to be persuasive. Claims are allowed.

Allowable Subject Matter

Claims 1,3 and 11-12 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art either taken singularly or in combination fails to disclose a method of manufacturing an internal grooved tube that includes the combination of number of balls limited to 2 to 3 and a lead angle of the grooves of the grooved plug to the axis is limited to 26 to 45 degrees. The combination of ball and angle as claimed patentably defines over the prior art since this combination is critical and does yield unexpected result. (See applicant's Remark, page 5)

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
